

I pledge to:

Training and upskilling of health care professionals
How to improve GP access doe those is greatest need
dr Mayur lakhani

Be an advocate for health to be considered more widely throughout services that may not realise they can make impact

Work hard to promote the work of the HWB

Work with communities to understand how they want to improve their environments

Follow up with Mike and Jon re links between health and GDP for LCC + continue to pursue the 'structural' elements of inequity that exist in the NHS

To follow up with some colleagues and work how how we refresh the health workstream in the Strategic Growth Plan...and...suggest an approach to systems thinking for the Board

work with local PCN to support increased awareness of neighbourhood needs

Work more closely with a range of local authority partners on aligning actions with the NHS on health inequalities and the wider determinants of health

Pick up that conversation with Jon and Mark!

55

I pledge to:

Work to fully understand health inequalities in the widest context, in particular for children and young people across Leicestershire and ensure services are designed that recognise and reduce inequalities.

work to improve life chances of people who are disadvantaged or excluded within communities

Be mindful of how long term growth impacts health - working closely with other stakeholders to achieve action

I pledge to work together to improve lives

To work with and facilitate the governance process of the formation of the ICS with wider stake holders to deliver better health outcomes of our population.

Bring projects forward that can link the food system and wider determinants priorities e.g. food production and education - and look at associated evaluation.

Ensure proportionate universalism in our service offer and delivery

I'll keep reminding people that it's all of our responsibility to reduce health inequalities

Influence the Planning system at both a local and national level to improve developments so that they reduce impacts on health and inequalities and in fact they positively benefit!

50

I pledge to:

take the findings from this event back to the LLEP and feed it into all of our work areas so that all our decisions take health and wellbeing equalities into consideration
