LEICESTERSHIRE COUNTY COUNCIL – REPLACEMENT FENCING ALONG THE EASTERN BOUNDARY, HUNCOTE COMMUNITY PRIMARY SCHOOL, DENMAN LANE, HUNCOTE (BLABY DISTRICT)

2010/0371/01 – 4th May 2010

Consultations

Blaby District Council

Objects, on the basis that that replacement fencing, by virtue of its height, design and positioning would be an incongruous, overtly institutional feature which would detract visually from the street scene appearance. Furthermore, the proposed replacement fencing would result in the removal of traditional metal railings which exists generally along the highway frontage of such facilities.

It is acknowledged that the introduction of the higher fencing would increase security at the site, however it is recommended that the existing traditional metal railings are retained and alternative security measures are introduced.
